Janmejay Sahoo

B.Tech Computer Science Student | Full Stack Developer

Bhubaneswar, Odisha janmejaysahoo100@gmail.com +91 9124176830 LinkedIn GitHub

Career Objective

Motivated Computer Science engineering student with strong foundations in Java, Data Structures, Algorithms, and web development. Experienced in building frontend applications and full-stack projects using JavaScript and the MERN stack. Seeking a Software Development Engineer Intern role to contribute to real-world software systems while strengthening problem-solving, backend development, and collaborative engineering skills.

Technical Skills

Programming Languages: Java, C, Python, JavaScript
Web Technologies: HTML, CSS, JavaScript, Django
Backend & Databases: Node.js, Express.js, MySQL (basic queries)
Core CS: Data Structures & Algorithms, OOPs, DBMS, SDLC, Agile basics
Tools: Git, GitHub, VS Code
AI Tools: ChatGPT, Gemini, Claude, Antigravity, Stitch — used for code generation, debugging, and rapid prototyping
Testing: Unit Testing, Debugging, Integration Testing (basics)

Education

Institute of Technical Education and Research (ITER), SOA University *2024 – Present*
Bachelor of Technology in Computer Science and Engineering
CGPA: **9.59**

Simulia Heigher Secondary School, Markona *2022 – 2024*
Intermediate (+2)

B.T. High School, Tulamtula *2022*
10th

Experience

Alfido Tech – Virtual Internship (Frontend Development) *Sep 2025 – Nov 2025*

- Developed frontend components using HTML, CSS, and JavaScript
- Built interactive UI features and improved client-side functionality
- Used Git and GitHub for version control and collaborative development
- Enhanced debugging and basic testing practices

Campus Ambassador- Internshala *Sep 2025 – Present*
Campus Ambassador- Techkriti, IIT Kanpur *Sep 2025 – Present*

Projects

To-Do List Application *JavaScript, HTML, CSS*

- Built a task management application with add, delete, and clear functionality
- Practiced DOM manipulation and event handling

Recipe Website *HTML, CSS, JavaScript*

- Developed a responsive recipe website with interactive UI elements
- Improved layout design and frontend development skills

Shopping Website *HTML, CSS, JavaScript*

- Created a shopping website with product listing and basic cart functionality
- Implemented frontend logic for improved user interaction

Portfolio Website *HTML, CSS, JavaScript*

- Designed and built a personal portfolio to showcase projects and skills
- Focused on clean UI, responsiveness, and accessibility

MediMind (In Progress) *JavaScript*

- Conceptualizing a medicine reminder application to notify users of medication schedules
- Aimed at improving healthcare routines through simple and accessible technology

Achievements

- Solved 200+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks
- Strong practice in arrays, strings, recursion, and basic dynamic programming
- Learn UI and UX from Udemy, Foundation of Data from Google,
